MSME SECTOR-A FORCE TO RECKON WITH AS THE BIGGEST JOB CREATOR

DR. RANJEET MEHTA

The importance of 65 million MSMEs, which account for about 120 million jobs and 30% of the country's economic output, cannot be underestimated as it forms the backbone of the industrial landscape of the country contributing 49 per cent to the exports and 45 per cent to the manufacturing sector and also responsible for around 30% of total employment generation in India. The Micro, Small and Medium Enterprises (MSME) sector has emerged as a highly vibrant and dynamic sector of the Indian economy over the last few decades. It contributes significantly in the economic and social development of the country by fostering entrepreneurship and generating largest employment opportunities at comparatively lower capital cost, next only to agriculture. MSMEs are complementary to large industries as ancillary units and this sector contribute significantly in the inclusive industrial

development of the country. The MSMEs are widening their domain across sectors of the economy, producing diverse range of products and services to meet the demand of domestic as well as international markets.

Small and Medium Enterprises (SMEs) are crucial for the economic growth and stability of any country and play a vital role especially for developing countries as they facilitate economic activity and provide employment thus contributing to poverty reduction. In the Indian

context they can be considered as the backbone of national economy. The Micro sector with 630.52 lac estimated enterprises accounts for more than 99% of total estimated number of MSMEs. Small sector with 3.31 lac and Medium sector with 0.05 lac estimated MSMEs accounts for 0.52% and 0.01% of total estimated MSMEs, respectively.

One of the data from National Sample Survey (NSS) 73rd round will further emphasize on the significance of MSME sector in India as it states that during

the period 2015-16, MSME sector has been creating 11.10 crore jobs (360.41 lacs in Manufacturing, 387.18 lacs in Trade and 362.82 lacs in Other Services and 0.07 lacs in Non-captive Electricity Generation and Transmission) in the rural and the urban areas across the country. Micro sector with 630.52 lac estimated enterprises provides employment to 1076.19 lac persons, which accounts for around 97% of total employment in the sector. Small sector with 3.31 lac and Medium sector with 0.05 lac estimated MSMEs provides employment to 31.95 lac (2.88%) and 1.75 lac (0.16%) persons of total employment in MSME sector, respectively. Out of 1109.89 lacs employees in MSME sector, 844.68 (76%) are male employees and remaining 264.92 lacs (24%) are females.

India has been the breeding ground for ideas and entrepreneurs in the recent past. Start-up activity is at an all-time high. Start-ups have mushroomed

across markets and industries, despite all the murkiness and uncertainty in the policy framework.

India needs 6 to 7 million jobs a year and global data shows that it is the MSMEs including start-ups, not large enterprises that create net new jobs in any country. Start-ups are also the centers of innovation and are a great way to enhance employment creation in the economy.

The "Start-up India" initiative launched on January 16, 2016 aims at fostering entrepreneurship and promoting innovation by creating an ecosystem that is conducive for growth of Start-ups. The objective is that India must become a nation of job creators instead of being a nation of job seekers. The Startup India by Prime Minister of India has already brought lots of positivity among the entrepreneurs in India. Industry is elated by the

fact that India has the third largest number of start-ups globally. Fostering a fruitful culture of innovation in the country is a long and important journey. This initiative will go a significant way in reiterating Government of India's commitment to making India the hub of innovation, design and Start-ups.

We have noticed that Prime Minister Narendra Modi has shifted his entire focus on revival of the MSME sector. The prime minister recently launched 'MSME Support and Outreach Program' and announced twelve big decisions to support the growth of small businesses in the country.

Here are 12 key decisions recently taken by Modi government to support MSMEs

1. 59-minutes loans

The GST-registered micro, small and medium enterprises (MSMEs) will be sanctioned a loan of Rs 1 crore in just 59 minutes through a new portal. This will enable MSMEs to get the loan approval within 59 minutes.

2. Rebate in interest rate

The GST-registered MSMEs will get 2% subvention or rebate on incremental new loans of up to Rs 1 crore. Interest subvention on pre- and post-shipment credit for exports by MSMEs has also been increased from 3% to 5%.

3. Cash flow certainty

It is now mandatory for companies with a turnover of more than Rs 500 crore to join Trade Receivables e-Discounting System (TReDS). This provision will help MSMEs to have liquidity in their hands and will solve their cash flow problems.

4. Procurement by PSUs

Public sector companies, which were mandated to source 20% of their annual procurement from MSMEs, will now source at least 25% of their requirements from MSME sector.

5. Women entrepreneurs

Out of the 25% procurement mandated from MSMEs, 3% must now be reserved for women entrepreneurs.

6. Government e-Marketplace (GeM)

All central public sector enterprises will have to take membership of the Government e-Marketplace (GeM) to facilitate online procurement of common use goods and services by various government departments and organisations. GeM is a great platform to boost the MSME sector. By facilitating business between the Government, Industry and entrepreneurs online, GeM helps in improving the quality and efficiency of the products and services on offer, particularly the ones sourced from the MSME sector. The MSMEs can bid for market tenders free of cost through the e-Procurement portal. This would allow MSMEs to actively participate in various

Government Procurement programs. This would also enable the Public Sector Enterprises (PSUs) to achieve the mandatory 20% procurement from SMEs as stipulated in the Procurement Policy of 2012 and further contribute to the growth of MSMEs.

7. Technological upgradation

The government announced Rs 6,000 crore package to facilitate better technological support and tools to small industries. The money will be used for 20 hubs and 100 tool rooms for technology upgradation.

8. Pharma companies

The government will form MSME pharma clusters. 70% cost of establishing these clusters will be borne by the government.

9. One annual return

MSMEs will have to file just one annual return on eight labour laws and 10 central rules.

10. No more inspector raj

Inspections of factories in the MSME sector will be sanctioned only through a computerised random allotment and inspectors will have to upload reports on the portal within 48 hours therefore unnecessary harassment is eliminated.

11. Relaxation in environmental clearances

MSMEs will now need single air and water clearance and just one consent to establish a factory. This will help in ease of starting a business.

12. Ordinance in Companies Act

An ordinance has been

Other important initiatives taken by Government of India to promote MSMEs are as follows:-

MSME SAMADHAN

The Government also launched the MSME Samadhan Portal during October 2017 to resolve issues in case of delayed payments to MSMEs. The MSMEs under this scheme can register their cases online which would be taken up by the concerned Micro and Small Enterprise Facilitation Council (MSEFC), to be established by the state governments. Under Section 16 of the MSMED Act, delayed payment to supplier units, attracts compound interest with monthly rests at three times of the bank rate notified by the RBI.

MSME-SAMBANDH

On 8 December 2017, the Government launched the MSME Sambandh Portal, to monitor the implementation of Public Procurement from MSMEs by Central Public Sector Enterprises (CPSEs). The MSMEs would be able to access the information about various products through this online portal. The minimum 20% mandatory procurement of total products and services produced by MSMEs by Central Government Departments/ CPSEs could also be assessed effectively through this portal. Overall, the system will enhance

ease of doing business for MSMEs and thus provide a further boost to the Government's Make in India initiative.

National Scheduled Caste/ Scheduled Tribe Hub:

This Ministry of MSME approved a scheme for setting up of National Schedule Caste and Schedule Tribes (SC/ST) Hub on 25.07.2016. The said Hub was formally launched by the Hon'ble Prime Minister on 18.10.2016 at Ludhiana, Punjab. The Hub is set up to provide professional support to SC/ST entrepreneurs to fulfill the obligations under the Central Government Public Procurement Policy for Micro and Small Enterprises Order 2012, adopt applicable business practices and leverage the Standup India initiatives.

Pradhan Mantri Micro Units Development and Refinance Agency Limited (MUDRA)

Thus by bringing new competitive dynamics in the economic system - Startup companies are the most dynamic economic organizations on the market, since they provide additional dynamics and competitiveness to any economic system. They act as catalytic agent for change, which results in chain reaction. Once an enterprise is established, the process of industrialization is set in motion. All these activities

foster entrepreneurship and create demand for various types of units and will in turn, lead to overall development of an area due to increase in demand and setting up of more and more units. Indigenous start-ups will not only make the lives of the people easier through their affordable and convenient services but will also act as a major booster for the development and the progress of the Indian economy. We believe that Startup India is about creating prosperity in India. Many enterprising young people who dream of starting their own business lack the resources. As a result, their ideas, talent and capabilities remain untapped - and the country loses out on wealth creation, economic growth and employment. Startup India is helping boost entrepreneurship and economic development - by ensuring that people who have the potential to innovate and start their own business are encouraged - with proactive support and incentives at multiple levels.

Finally, with all these initiatives- MSME sector has been instrumental in the growth of the nation, leveraging exports, creating huge employment

opportunities for the unskilled, fresh graduates, and the underemployed, also extending the opportunities to banks for giving more credit to enterprises in this sector. The transformational reform such as Goods & Services Tax(GST) has helped in bringing many of the Micro, Small & Medium Enterprises - MSMEs to the formal sector which was earlier in the informal economy. One of the reasons these small businesses are seeing so much success is because they are capitalizing on Digital India and leveraging the internet to market themselves and build an identity- and lead the digital transformation for India. Digital has democratized globalization-MSMEs with vision can now reach customers all over the world. The online space has opened up a whole new avenue of doing business which was just not available earlier. Which has in turn led to a growth of entrepreneurs as well as giving MSMEs an importance in our economy-something that simply wasn't possible earlier.

India scored 622 for 7 in their first innings and then bowled out Australia for 300 thereby enforcing the follow-on. However, persistent drizzle washed out day five thereby keeping the victory margin down to 2-1. The Hosts were still trailing by 316 runs when the match was called off. It is the first time India managed the feat since they began touring Australia in 1947-48. Consequently, Virat Kohli became the first Indian as well as the first Asian captain to win a Test series in Australia.
